

Dear FCC:

I have a 37 mile commute every day and need reliable traffic reports. The local stations in Houston are not adequate. Their traffic reports are not accurate and are sporadic. Even the local am news channel that brags that they offer traffic reports every 6 minutes, will cancel these reports altogether if there is a baseball game.

I was thrilled when XM radio started offering local traffic. their reports are the most accurate and reliable ones available in Houston. I depend on these reports to manage my daily commute.

Obviously, if local radio offered a comparable service, I would choose it since local radio is free.

The fact that I am willing to pay for XM radio attests to the fact that I find their traffic reports superior to those offered by local stations.

PLEASE ALLOW XM RADIO TO CONTINUE TO OFFER LOCAL TRAFFIC REPORTS!

Thank you, Faye Johnson
